

PREVENTS AND TREATS IRON DEFICIENCY ALLOWED IN ORGANIC FARMING

K-FERRO is a product that combines acidifying and greening properties. Thanks to its high iron content, it has a preventative and curative activity against chlorosis. Its use favors a rapid coloring of the leaves, whose intensity confers lushness and better looks. The magnesium therein present together with iron, contributes to the intense coloring of the vegetative tissues. Sulfur, with its acidifying action, improves the availability of nutritive elements in the soil.

COMPOSITION		PHYSICO-CHEMICAL FEATURES		
Magnesium oxide (MgO) total	5.00%	GRANULAR		
Magnesium oxide (MgO) soluble in water	3.00%	pH (sol 1%)	3.2	
Sulfuric anhydride (SO ₃) soluble in water	34.00%	Conductivity E.C. µS/cm (1‰)	418	
Iron (Fe) soluble in water	12.00%	Density (g/cm ³)/Specific weight	1.19	
Manganese (Mn) soluble in water	0.60%	Granulometry (mm)	1.5	
METHOD OF USE				
		Cover fertilization	Pre-sowing fertilization	Fertilizers for bush transplanting

PACKAGING: 25 KG - PALLET 1500 KG, BIG BAG 600 KG
